[Improvisation and Social Aesthetics](#) Georgina Born 2017-03-03 Addressing a wide range of improvised art and music forms—from jazz and cinema to dance and literature—this volume's contributors locate improvisation as a key site of mediation between the social and the aesthetic. As a catalyst for social experiment and political practice, improvisation aids in the creation, contestation, and codification of social realities and identities. Among other topics, the contributors discuss the social aesthetics of the Association for the Advancement of Creative Musicians, the Feminist Improvising Group, and contemporary Malian music, as well as the virtual sociality of interactive computer music, the significance of "uncreative" improvisation, responses to French New Wave cinema, and the work of figures ranging from bell hooks and Billy Strayhorn to Kenneth Goldsmith. Across its diverse chapters, *Improvisation and Social Aesthetics* argues that ensemble improvisation is not inherently egalitarian or emancipatory, but offers a potential site for the cultivation of new forms of social relations. It sets out a new conceptualization of the aesthetic as immanently social and political, proposing a new paradigm of improvisation studies that will have reverberations throughout the humanities. **21st Century Sports** Sascha L. Schmidt 2020-09-12 This book outlines the effects that technology-induced change will have on sport within the next five to ten years, and provides food for thought concerning what lies further ahead. Presented as a collection of essays, the authors are leading academics from renowned institutions such as Massachusetts Institute of Technology, Queensland University of Technology, and the University of Cambridge, and practitioners with extensive technological expertise. In their essays, the authors examine the impacts of emerging technologies like artificial intelligence, the Internet of Things, and robotics on sports and assess how they will change sport itself, consumer behavior, and existing business models. The book will help athletes, entrepreneurs, and innovators working in the sports industry to spot trendsetting technologies, gain deeper insights into how they will affect their activities, and identify the most effective responses to stay ahead of the competition both on and off the pitch.

**Fair Shares for All** Jean-Pierre Gross 2003-11-13 This study explores the egalitarian policies pursued in the provinces during the radical phase of the French Revolution, but moves away from the habit of looking at such issues in terms of the Terror alone. It challenges revisionist readings of Jacobinism that dwell on its totalitarian potential or portray it as dangerously utopian. The mainstream Jacobin agenda emphasised 'fair shares' and equal opportunities for all in a private ownership market economy. It sought to achieve social justice without jeopardising human rights and tended thus to complement, rather than undermine, the liberal, individualist programme of the Revolution. The book stresses the relevance of the 'Enlightenment legacy', the close affinity between Girondins and Montagnards, the key role played by many lesser-known figures and the moral ascendancy of Robespierre. It reassesses the basic social and economic issues at stake in the Revolution, which cannot be understood solely in terms of political discourse.

**No Straight Lines** Terry Kading 2018-05-03 Small cities face intricate challenges. No Straight Lines provides the basis for a refined model of community-engaged leadership and research designed to realize equality of quality of life. With particular attention to the small city of Kamloops, BC, this book explores the impact of extended, short-term, and unique leadership collaborations and local responses to homelessness, sustainability and food security, aging populations, and the recovery of local history. It offers exciting insights into the role of the university in the small city, from generating local learning opportunities to the integration of undergraduates and faculty in achieving positive change. Based on active engagement, No Straight Lines reveals the barriers present in addressing local needs, and the transformations that can be achieved through effective collaboration. It offers rich accounts and valuable insights into flexible practices that respond to the needs of community organizations while recognizing the challenges associated with resource constraints and limitations in capacity. This unique collection provides new insights into the twists and turns of leadership and learning in the small city.

[Introduction to the Languages of the World](#) Anatole Lyovin 2016-12-15 Unique in scope, *An Introduction to the Languages of the World* introduces linguistics students to the variety of world's languages. Students will gain familiarity with concepts such as sound change, lexical borrowing, diglossia, and language diffusion, and the rich variety of linguistic structure in word order, morphological types, grammatical relations, gender, inflection, and derivation. It offers the opportunity to explore structures of varying and fascinating languages even with no prior acquaintance. A chapter is devoted to each of the world's continents, with in-depth analyses of representative languages of Europe, Asia, Africa, Oceania, and America, and separate chapters cover writing systems and pidgins and creoles. Each chapter contains exercises and recommendations for further reading. New to this edition are eleven original maps as well as

sections on sign languages and language death and revitalization. For greater readability, basic language facts are now organized in tables, and language samples follow international standards for phonetic transcription and word-by-word glossing. There is an instructor's manual available for registered instructors on the book's companion website.

[A Common Hunger](#) Joan G. Fairweather 2006 The impact of colonial dispossession and the subsequent social and political ramifications place a unique burden on governments having to establish equitable means of addressing previous injustices. *A Common Hunger* considers the efforts by both of these countries to reconcile the damage left by colonial oppression, in part, looking back with a critical eye, but also pointing the way toward a solution that will satisfy the common need for human dignity.

*Accounting Information Systems for Decision Making* Daniela Mancini 2013-04-18 This book contains a collection of research papers on accounting information systems including their strategic role in decision processes, within and between companies. An accounting system is a complex system composed of a mix of strictly interrelated elements such as data, information, human resources, IT tool, accounting models and procedures. Accounting information systems are often considered the instrument by default for accounting automation. This book aims to sketch a clear picture of the current state of AIS research, including design, acceptance and reliance, value-added decision making, interorganizational links, and process improvements. The contributions in this volume emphasize that AIS has grown into a powerful strategic tool. The book provides evidence for this observation by examining a wide range of current issues ranging from theory development in AIS to practical applications of accounting information systems. In particular it focuses on themes of growing interest in the realm of XBRL and Financial Reporting, Management Information Systems, IT/IS Audit and IT/IS Compliance. The book will be of interest to financial and managerial accountants and IT/IS practitioners, including information systems managers and consultants.

**Two-Faced Racism** Leslie Picca 2020-07-24 Two-Faced Racism examines and explains the racial attitudes and behaviours exhibited by whites in private settings. While there are many books that deal with public attitudes, behaviours, and incidences concerning race and racism (frontstage), there are few studies on the attitudes whites display among friends, family, and other whites in private settings (backstage). The core of this book draws upon 626 journals of racial events kept by white college students at twenty-eight colleges in the United States. The book seeks to comprehend how whites think in racial terms by analyzing their reported racial events.

**Entrepreneurship in the Fourth Sector** María Isabel Sánchez-Hernández 2021-06-09 “The fourth sector” is a relatively new sector that consists of for-profit organizations that combine market-based approaches of the private sector with the social and environmental aims of the public and non-profit sectors. This book examines trends of entrepreneurship in the fourth sector, describes specific ecosystems fostering new ventures around the world, and characterizes the most common and innovative business models. It covers as well the main effects, among others, of technological change, innovation, and institutional behavior on the sector in the last years.

**A Year with Swollen Appendices** Brian Eno 2020-11-17 The diary and essays of Brian Eno republished twenty-five years on with a new introduction by the artist in a beautiful hardback edition. 'A cranium tour of one of the most creative minds of our age . . . [Eno] delivers razor-sharp commentary with devilish snarkiness and brutal honesty.' Wired At the end of 1994, Brian Eno resolved to keep a diary. His plans to go to the cinema, theatre and galleries fell quickly to the wayside. What he did do - and write - however, was astonishing: ruminations on his collaborative work with David Bowie, U2, James and Jah Wobble, interspersed with correspondence and essays dating back to 1978. These 'appendices' covered topics from the generative and ambient music Eno pioneered to what he believed the role of an artist and their art to be, alongside adroit commentary on quotidian tribulations and happenings around the world. An intimate insight into one of the most influential creative artists of our time, *A Year with Swollen Appendices* is an essential classic.

[Sustainable Land Management in a European Context](#) Thomas Weith 2020-08-28 This open access book presents and discusses current issues and innovative solution approaches for land management in a European context. Manifold sustainability issues are closely interconnected with land use practices. Throughout the world, we face increasing conflict over the use of land as well as competition for land. Drawing on experience in sustainable land management gained from seven years of the FONA programme (Research for Sustainable Development, conducted under the auspices of the German Federal Ministry of Education and Research), the book stresses and highlights co-design processes within the “co-creation of knowledge”, involving collaboration in transdisciplinary research processes between academia and other stakeholders. The book begins with an overview of the current state of land use practices and the subsequent need to manage land resources more sustainably. New system solutions and governance approaches in sustainable land management are presented from a European perspective on land use. The volume also addresses how to use new modes of knowledge transfer between science and practice. New perspectives in sustainable land management and methods of combining knowledge and action are presented to a broad readership in land system sciences and environmental sciences, social sciences and geosciences.

[Radio Fun and the BBC Variety Department, 1922—67](#) Martin Dibbs 2018-09-17 This book provides a narrative history of the BBC Radio Variety Department exploring, along chronological lines, the workings of, tensions within and the impact of BBC policies on the programme-making department which generated the organisation's largest audiences. It provides an insight into key events, personalities, programmes, internal politics and trends in popular entertainment, censorship and anti-American policy as they individually or collectively affected the Department. Martin Dibbs examines how the Department's programmes became markers in the daily and weekly lives of millions of listeners, and helped shape the nation's listening habits when radio was the dominant source of domestic entertainment. The book explores events and topics which, while not directly forming part of the Variety Department's history, nevertheless intersected with or had an impact on it. Such topics include the BBC's attitude to jazz and rock and roll, the arrival of television with its impact on radio, the pirate radio stations, and the Popular Music and Gramophone Departments, both of whom worked closely with the Variety Department.

*Britain's Winning Formula* M. Beck-Burridge 1999-11-18 The international financial value of Grand Prix racing has grown substantially in recent years. This book will focus upon the massive size, value, importance and impact of the industry. It will also investigate the dominance of UK based Research and Development and design and the development of team strategy and tactics. The authors have based their analysis upon very up-to-date research involving interviews with key individuals at the highest level and visibility within the industry and focus upon the key management themes of teamworking, leadership, strategy and innovation.

[Final Report of the Truth and Reconciliation Commission of Canada, Volume One: Summary](#) Truth and Reconciliation Commission of Canada 2015-07-22 This is the Final Report of Canada's Truth and Reconciliation Commission and its six-year investigation of the residential school system for Aboriginal youth and the legacy of these schools. This report, the summary volume, includes the history of residential schools, the legacy of that school system, and the full text of the Commission's 94 recommendations for action to address that legacy. This report lays bare a part of Canada's history that until recently was little-known to

most non-Aboriginal Canadians. The Commission discusses the logic of the colonization of Canada's territories, and why and how policy and practice developed to end the existence of distinct societies of Aboriginal peoples. Using brief excerpts from the powerful testimony heard from Survivors, this report documents the residential school system which forced children into institutions where they were forbidden to speak their language, required to discard their clothing in favour of institutional wear, given inadequate food, housed in inferior and fire-prone buildings, required to work when they should have been studying, and subjected to emotional, psychological and often physical abuse. In this setting, cruel punishments were all too common, as was sexual abuse. More than 30,000 Survivors have been compensated financially by the Government of Canada for their experiences in residential schools, but the legacy of this experience is ongoing today. This report explains the links to high rates of Aboriginal children being taken from their families, abuse of drugs and alcohol, and high rates of suicide. The report documents the drastic decline in the presence of Aboriginal languages, even as Survivors and others work to maintain their distinctive cultures, traditions, and governance. The report offers 94 calls to action on the part of governments, churches, public institutions and non-Aboriginal Canadians as a path to meaningful reconciliation of Canada today with Aboriginal citizens. Even though the historical experience of residential schools constituted an act of cultural genocide by Canadian government authorities, the United Nation's declaration of the rights of aboriginal peoples and the specific recommendations of the Commission offer a path to move from apology for these events to true reconciliation that can be embraced by all Canadians.

**IMF Lending to Developing Countries** Consultant Immunologist and Senior Lecturer in Immunology Graham Bird 2003-09-02 As the linchpin of the global financial system, the International Monetary Fund provides the balance of payments support, chiefly to developing countries, conditional on strict remedial policy measures. Its approach to policy remains highly controversial, however. While the Fund claims it has adapted, critics allege its policies are harshly doctrinaire, imposing hardships on already poverty-stricken people. For the critics, the half century of its existence is 'fifty years too long' and radical change is essential. This book examines the arguments, tracing the extent of Fund adaption, presenting major new evidence on the consequences of fund programmes, and considering its future role.

*Honest to Greatness* Peter Kozodoy 2020-08-11 In today's hyper-transparent world, consumers have enormous power to decide which brands are worth their time and money—so how do you make sure they choose yours? Unfortunately, most leaders and organizations are stuck following archaic, detrimental business practices. Meanwhile, savvy consumers and employees across every generation are making their stance perfectly clear: They are not interested in supporting organizations that seem inauthentic, soulless, or untrustworthy. In this environment, only the honest will survive. In *Honest to Greatness*, serial Inc. 5000 entrepreneur Peter Kozodoy shows how today's greatest business leaders use honesty—not as a touchy-feely core value, but as a business strategy that produces game-changing, industry-dominating success. Through case studies and interviews with leaders at Bridgewater Associates, Sprint, Quicken Loans, Domino's, The Ritz-Carlton, and more, Kozodoy presents fresh business concepts that anyone in the workplace can implement in order to: • Reach, engage, and retain your best customers • Attract and inspire the best talent in any industry • Create an unbeatable culture of innovation that dominates your competitors • Earn your team's respect and loyalty • Unlock deep personal fulfillment by setting the "right" goals Filled with powerful lessons for current and future leaders, this timely book demonstrates how to use honesty at both the organizational and individual level to achieve true greatness in business and in life.

**English as a Global Language** David Crystal 2012-03-29 David Crystal's classic *English as a Global Language* considers the history, present status and future of the English language, focusing on its role as the leading international language. English has been deemed the most 'successful' language ever, with 1500 million speakers internationally, presenting a difficult task to those who wish to investigate it in its entirety. However, Crystal explores the subject in a measured but engaging way, always backing up observations with facts and figures. Written in a detailed and fascinating manner, this is a book written by an expert both for specialists in the subject and for general readers interested in the English language.

*Vehicle Technology* Dieter Schramm 2020-06-08 The motor vehicle technology covered in this book has become in the more than 125 years of its history in many aspects an extremely complex and, in many areas of engineering science . Motor vehicles must remain functional under harsh environmental conditions and extreme continuous loads and must also be reliably brought into a safe state even in the event of a failure by a few trained operators. The automobile is at the same time a mass product, which must be produced in millions of pieces and at extremely low cost. In addition to the fundamentals of current vehicle systems, the book also provides an overview of future developments such as, for example, in the areas of electromobility, alternative drives and driver assistance systems. The basis for the book is a series of lectures on automotive engineering, which has been offered by the first-named author at the University of Duisburg-Essen for many years. Starting from classical systems in the automobile, the reader is given a systemic view of modern motor vehicles. In addition to the pure basic function, the modeling of individual (sub-) systems is also discussed. This gives the reader a deep understanding of the

underlying principles. In addition, the book with the given models provides a basis for the practical application in the area of simulation technology and thus achieves a clear added value against books, which merely explain the function of a system without entering into the modeling. On the basis of today's vehicle systems we will continue to look at current and future systems. In addition to the state-of-the-art, the reader is thus taught which topics are currently dominant in research and which developments can be expected for the future. In particular, a large number of practical examples are provided directly from the vehicle industry. Especially for students of vehicle-oriented study courses and lectures, the book thus enables an optimal preparation for possible future fields of activity.

[Stabilizing Indigenous Languages](#) 1996 Stabilizing indigenous languages is the proceedings of two symposia held in November 1994 and May 1995 at Northern Arizona University. These conferences brought together language activists, tribal educators, and experts on linguistics, language renewal, and language teaching to discuss policy changes, educational reforms, and community initiatives to stabilize and revitalize American Indian and Alaska Native languages. Stabilizing indigenous languages includes a survey of the historical, current, and projected status of indigenous languages in the United States as well as extensive information on the roles of families, communities, and schools in promoting their use and maintenance. It includes descriptions of successful native language programs and papers by leaders in the field of indigenous language study, including Joshua Fishman and Michael Krauss.

**Circular Use of Resources** Csaba Fogarassy 2020-08-31 Circular solutions are essential to tackle the eminent challenges of depleting resources and emerging environmental problems. The complex nature of material and energy systems and the changing of economic and technological conditions differ among countries and, therefore, lead to the application of vastly different practices in developed and rapidly developing countries of the world. A wide variety of theoretical approaches can be used to facilitate a shift from the linear use of resources to circular systems, e.g., circular product planning, life cycle planning, sharing and platform economy, refurbishing, and remanufacturing, to name but a few. The introduction and examination of circular solutions can be based on theoretical models in order to guarantee ensure successful application. Successful application of innovative technology approaches, business solutions, and organizational development can be facilitated through theoretical models and new scientific results that support innovation processes. This Special Issue reprint focuses on sustainable and innovative methods which help and enable the proper use and recovery of resources. We present a collection of research papers, reviews, research reports, and case studies that introduce or discuss circular solutions for the sustainable use of resources.
