[The Art of Discovering Whales](#) Larry Foster 2021-03-09 What do whales truly look like? To answer this question, Larry Foster devoted decades of research and study to show whale lovers everywhere the true body shapes of whales, dolphins, and porpoises?Cetacea. His goal: to debunk the centuries-old myths that incorrectly presented whales as grotesque, blimp-like, and dangerous animals, and to accurately depict whales as the graceful, sleek, and streamlined marine mammals they really are. The Art of Discovering Whales is a detailed look into Larry's fifty-plus-year career as the only scientific artist to produce anatomically correct portrayals of 75+ species of whales with over 300 color images of his prolific whale artwork in every medium imaginable: drawings, paintings, stained-glass and life-size sculptures and more. Anyone who appreciates and is inspired by these truly majestic animals will be in wonder how no one individual has done so much in the field to correct any misinterpretations of the appearance of any group of animals as Larry Foster. Readers will delight in Larry's unique whale discoveries firsthand, and gain appreciation for his pioneering contributions in the quest to teach, discover, and celebrate whales.

[Roman Imperialism and Local Identities](#) Louise Revell 2008-10-06 In this book, Louise Revell examines questions of Roman imperialism and Roman ethnic identity and explores Roman imperialism as a lived experience based around the paradox of similarity and difference. Her case studies of public architecture in several urban settings provides an understanding of the ways in which urbanism, the emperor and religion were part of the daily encounters of the peoples in these communities. Revell applies the ideas of agency and practice in her examination of the structures that held the empire together and how they were implicated within repeated daily activities. Rather than offering a homogenized "ideal type" description of Roman cultural identity, she uses these structures as a way to understand how these encounters differed between communities and within communities, thus producing a more nuanced interpretation of what it was to be Roman. Bringing an innovative approach to the problem of Romanization, Revell breaks from traditional models and cuts across a number of entrenched debates such as arguments about the imposition of Roman culture or resistance to Roman rule.

[\(GDI\) Gasoline Direct Injection Explained](#) Mandy Concepcion 2012-10-11 (GDI) Gasoline Direct Injection Explained (A Gasoline Direct Injection Technology Series) By Mandy Concepcion This book, "(GDI) Gasoline Direct Injection Explained" covers the major points of this technology. It is a must first book for anyone interested in updating and understanding the finer points of this technology. All the major auto makers are now releasing new models with GDI injection. This technology is easy and faster to manufacture, now that the engineering has pretty much been polished. Gone are the carbon issues of the past. GDI has matured and is here to stay. This book will cover sensors and feedback programs that only GDI systems employ. There are some, but few similarities between GDI and PFI, which we'll cover here. The main differences are in the high pressures needed and the way injectors are triggered (not with 12 volts). Other issues that may render a GDI inoperative are the NOx systems, which is also covered in this book. We hope this book serves as a launching point for a complete and proper GDI Technology training regime. Enjoy. Table of contents (GDI) Gasoline Direct Injection Explained * GDI Advantages * GDI vs PFI Fuel Injection * GDI Spray Guided Combustion * GDI Wall Guided Combustion * GDI Injector Operation * GDI Injector Testing * GDI Injection Failures * GDI High Pressure Pump Construction * GDI High Pressure Pump Tests * GDI Pressure Sensor * GDI Pressure Sensor Testing * GDI Pressure Control Solenoid * GDI NOx Sensor Operation * GDI NOx Sensor Testing * GDI Erroneous NOx Codes * GDI Exhaust Temp Sensor * GDI Exhaust Temp Sensor Testing * GDI NOx Catalyst Operation * GDI NOx Catalyst Testing * GDI NOx Catalyst Regeneration *Design and Development of Heavy Duty Diesel Engines* P. Heavy Vehicle Event Data Recorder Interpretation Christopher D Armstrong 2018-11-30 The last ten years have seen explosive growth in the technology available to the collision analyst, changing the way reconstruction is practiced in fundamental ways. The greatest technological advances for the crash reconstruction community have come in the realms of photogrammetry and digital media analysis. The widespread use of scanning technology has facilitated the implementation of powerful new tools to digitize forensic data, create 3D models and visualize and analyze crash vehicles and environments. The introduction of unmanned aerial systems and standardization of crash data recorders to the crash reconstruction community have enhanced the ability of a crash analyst to visualize and model the components of a crash reconstruction. Because of the technological changes occurring in the industry, many SAE papers have been written to address the validation and use of new tools for collision reconstruction. Collision Reconstruction Methodologies Volumes 1-12 bring together seminal SAE technical papers surrounding advancements in the crash reconstruction field. Topics featured in the series include: Night Vision Study and Photogrammetry; Vehicle Event Data Recorders; Motorcycle, Heavy Vehicle, Bicycle and Pedestrian Accident Reconstruction. The goal is to provide the latest technologies and methodologies being introduced into collision reconstruction - appealing to crash analysts, consultants and safety engineers alike.
