The Big Book of Massey Tractors Robert N. Pripps 2006 This is the first full-scale history of one of the largest farm tractor manufacturers of all time, peppered with pictures of Massey-Harris, Ferguson, and Massey Ferguson's historic models, collectibles, sales memorabilia, and advertisements from old farm magazines. The Big Book of Massey Tractors tells the story of the mergers and machines that formed Massey Ferguson over several decades, and-because these machines dominated Canadian farms for almost a century-in many ways it also tells the story of Canadian agriculture. Robert Pripps, a longtime tractor aficionado, describes Massey Ferguson's battle with Ford over dominance of the farm tractor industry-a battle the company eventually won, remarkably enough, in view of its initial abject market failure with tractors. From the company's beginnings in 1891, to its 1953 merger with the Ferguson tractor company, to its current ownership by Allis-Gleaner Company (AGCO), Masseys have played a large role in our agricultural history. The Big Book of Massey Tractors celebrates that role and showcases the machines that have helped turn the earth for over a hundred years.

From Temple to Museum Salila Kulshreshtha 2017-10-05 Religious icons have been a contested terrain across the world. Their implications and understanding travel further than the artistic or the aesthetic and inform contemporary preoccupations.This book traces the lives of religious sculptures beyond the moment of their creation. It lays bare their purpose and evolution by contextualising them in their original architectural or ritual setting while also following their displacement. The work examines how these images may have moved during different spates of temple renovation and acquired new identities by being relocated either within sacred precincts or in private collections and museums, art markets or even desecrated and lost. The book highlights contentious issues in Indian archaeology such as renegotiating identities of religious images, reuse and sharing of sacred space by adherents of different faiths, rebuilding of temples and consequent reinvention of these sites. The author also engages with postcolonial debates surrounding history writing and knowledge creation in British India and how colonial archaeology, archival practices, official surveys and institutionalisation of museums has influenced the current understanding of religion, sacred space and religious icons. In doing so it bridges the historiographical divide between the ancient and the modern as well as socio-religious practices and their institutional memory and preservation. Drawn from a wide-ranging and interdisciplinary study of religious sculptures, classical texts, colonial archival records, British travelogues, official correspondences and fieldwork, the book will interest scholars and researchers of history, archaeology, religion, art history, museums studies, South Asian studies and Buddhist studies.
