Underwater Dogs Seth Casteel 2012-10-23 The exuberant, exhilarating photographs of dogs underwater that have become a sensation From the water's surface, it's a simple exercise: a dog's leap, a splash, and then a wet head surfacing with a ball, triumphant. But beneath the water is a chaotic ballet of bared teeth and bubbles, paddling paws, fur and ears billowing in the currents. From leaping Lab to diving Dachshund, the water is where a dog's distinct personality shines through; some lounge in the current, paddling slowly, but others arch their bodies to cut through the water with the focus and determination of a shark. In more than eighty portraits, award-winning pet photographer and animal rights activist Seth Casteel captures new sides of our old friends with vibrant underwater photography that makes it impossible to look away. Each image bubbles with exuberance and life, a striking reminder that even in the most loveable and domesticated dog, there are more primal forces at work. In *Underwater Dogs*, Seth Casteel gives playful and energetic testament to the rough-and-tumble joy that our dogs bring into our lives.

Castro's Daughter Alina Fernandez 1998-10-15 "Mommy, mommy, call him. Tell him to come here right away. I have so many things to tell him!" I had a ton of things to tell him. I wanted him to find a solution to all the shortages of clothes; of meat, so it would again be distributed through the ration books. I also wanted to ask him to give our Christmas back. And to come live with us. I wanted to let him know how much we really needed him... Fidel didn't answer my letter. I kept writing him letters from a sweet and well-behaved child, a brave but sad girl. Letters resembling those of a secret, spurned lover... As a girl growing up in Cuba, Alina Fernandez found nothing abnormal in the fact that Fidel Castro would occasionally visit her house bearing gifts just for her. At the age of ten, her mother finally told her the truth: she was Castro's Daughter.

Manual of Accounting: Narrative Reporting 2012

PricewaterhouseCoopers (Firm) 2011-01-01 UK companies are governed by legal and other regulatory requirements impacting elements of financial statements that are common to users of both International Financial Reporting Standards (IFRS) and UK GAAP. These are often referred to as the 'front half' of the financial statements. This publication contains the guidance applicable to all UK companies regardless of the GAAP under which their financial statements are prepared. Key updates from the previous edition (Manual of Accounting: Management Reports and Governance 2011) include updated chapters on business review and corporate governance, with many more illustrations and examples. Written by PwC's UK Assurance Risk and Quality team, the manual includes practical advice based on PwC's work advising clients, partners, and staff. The book will be of particular interest to finance directors, accountants, legal practitioners, company administrators, financial advisors, and auditors.

Katie's Cabbage Katie Stagliano 2014-12-12 Katie's

Cabbage is the inspirational true story of how Katie Stagliano, a third grader from Summerville, South Carolina, grew a forty-pound cabbage in her backyard and donated it to help feed 275 people at a local soup kitchen. In her own words, Katie shares the story of the little cabbage seedling and the big ideas of generosity and service that motivated her to turn this experience into Katie's Krops, a national youth movement aimed at ending hunger one vegetable garden at a time. Katie's Cabbage reminds us of how small things can grow and thrive when nurtured with tender loving and care and of how one person, with the support of family, friends, and community, can help make a powerful difference in the lives of so many. Katie's Cabbage was illustrated by Karen Heid, associate professor of art education at the University of South Carolina School of Visual Art and Design. Editorial assistance was provided by Michelle H. Martin, a dedicated gardener and the Augusta Baker Chair in Childhood Literacy at the University of South Carolina School of Library and Information Science. Patricia Moore-Pastides, First Lady of the University of South Carolina and author of Greek Revival from the Garden: Growing and Cooking for Life, offers a foreword about her friendship with Katie and her admiration of Katie's dream to end hunger one garden at a time.

The Alexandreis Walter Chatillon 2006-10-16 Walter of Châtillon's Latin epic on the life of Alexander the Great was a twelfth- and thirteenth-century "best-seller:" scribes produced over two hundred manuscripts. The poem follows Alexander from his first successes in Asia Minor, through his conquest of Persia and India, to his progressive moral degeneration and his poisoning by a disaffected lieutenant. The Alexandreis exemplifies twelfth-century discourses of world domination and the exoticism of the East. But at the same time it calls such dreams of mastery into question, repeatedly undercutting as it does Alexander's claims to heroism and virtue and by extension, similar claims by the great men of Walter's own generation. This extraordinarily layered and subtle poem stands as a high-water mark of the medieval tradition of Latin narrative literature. Along with David Townsend's revised translation, this edition provides a rich selection of historical documents, including other writings by Walter of Châtillon, excerpts from other medieval Latin epics, and contemporary accounts of the foreign and "exotic." **Manual of Microbiology** Kanika Sharma 2007 This book is an excellent supplementary textbook, written in simple language and easy to understand even for beginners. All topics related to microbiology are covered - general

aspects like techniques, culture and identification of bacteria, bacterial genetics, water, soil and food microbiology and the study of viruses and fungi. Medical microbiology is also discussed, dealing with sample collection and identification of common pathogenic bacteria. The book has a unique style - a basic idea of the topic is given followed by various laboratory methods presented systematically, keeping in mind problems faced by students and also stressing the "do's and don'ts" whilst carrying out various experiments. Diagrams and flow charges help to make learning easier and more interesting. And the final chapters contain instructions on practical exercises written to enable the student to perform them with confidence and ease. This is a superb step-by-step guide for microbiology students.

Surviving Home A. American 2016-04-05 Book 2 of The Survivalist Series No electricity. No running water. No food. No end in sight. If life as you knew it changed in an instant, would you be prepared? In A. American's first novel, *Going Home*, readers were introduced to Morgan Carter, the resourceful, tough-as-nails survivalist who embarks on a treacherous 250-mile journey across Florida following the collapse of the nation's power grid. Now reunited with his loving wife and daughters in this follow-up to *Going Home*, Morgan knows that their happiness is fleeting, as the worst is yet to come. Though for years Morgan has been diligently preparing for emergency situations, many of his neighbors are completely unready for life in this strange new world--and they're starting to get restless. With the help of his closest companions, Morgan fights to keep his home secure--only to discover shocking information about the state of the nation in the process. Fans of James Wesley Rawles, William R. Forstchen's *One Second After*, and *The End* by G. Michael Hopf will revel in A. American's apocalyptic tale.
