The Ancient Bosnian Pyramids Charles River Charles River Editors 2017-01-26
*Includes pictures *Includes theories and explanations regarding the structures
*Includes online resources for further reading "Ten years from now nobody will remember my critics, and a million people will come to see what we have done." - Semir Osmanagich There are hundreds of pyramid-shaped hills distributed in and around central Bosnia and Herzegovina, yet one in particular has achieved worldwide attention over the last decade. Found in the small town of Visoko, located about thirty kilometres northwest from Sarajevo, the hill is the tallest point in a landscape of tremendous historical importance for the country. The region has been occupied from prehistoric times. Rich in natural resources, the area was extensively quarried for metal ore and stone over many periods. In the medieval period (twelfth to fifteenth centuries CE), this area became the centre of the Kingdom of Bosnia. It was here that the first king of Bosnia, Tvrtko I, was crowned in 1377 CE. During this time the large hill became known as Visocica, and a fortress was constructed upon its summit. From 1463, the Ottomans controlled them, and under their rule, many towns were

founded, including Visoko which experienced a surge of economic development and cultural activity and became one of the richest towns in Bosnia. The town was of key importance in Bosnia's modern history, serving as a stronghold for Bosniak forces during conflict in the 1990s. However, it is not for these reasons that the hill of Visocica is so well-known today. Instead, the focus of attention has been on the controversial claim that it is the largest and oldest man-made pyramid to be found, not only in Europe, but the world. Since 2005, the Bosnian-born American businessman and self-proclaimed archaeologist Semir Osmanagich has promoted a controversial narrative of how and why the hill exists. He maintains that Visocica is not a natural feature, but was made by an ancient Bosniak civilization during the last Ice Age, between ten and twelve thousand years ago. Its substructure is allegedly filled with an intricate network of passageways that connect it to other structures in the surrounding landscape built during the same time. If true, the scale of these "pyramids" would have required the largest construction works to have ever been performed in prehistory. But this theory has been fiercely criticized by archaeologists, geologists, pyramid experts, journalists, and countless other academics

and non-academics. Many scientific specialists and laypersons have gone to Visoko to see the site with their own eyes, and reported that there is little evidence to suggest the validity of Semir's claims. Furthermore, some of the claims made of the pyramid are borderline science fiction, featuring everything from aliens to the mythical civilization of Atlantis. Through the use of popular and journalistic media, rather than academic channels, Mr. Osmanagich has garnered the attention of many hundreds of volunteers that come to Visoko each year. Conflicting accounts testify to what takes place. Is legitimate archaeology being carried out, or the creation of a money-making theme park for tourists? Can the Bosnian pyramid be considered genuine, or is this but one example of widespread and pseudoscientific "pyramid-mania" that occurs across the globe? Why do people believe in the fantastic stories woven around the Pyramid of the Sun, and why is the academic community so critical of this phenomenon? And who, exactly, is Semir Osmanagich, without whom this story would not exist? *The Ancient Bosnian Pyramids: The History and Mystery Over the Controversial Pyramids in Bosnia and Herzegovina* chronicles the theories and debates over the landmarks. Along with pictures of important people, places, and events, you will learn about the Bosnian pyramids like never before.

The Matrix Control System of Philip K. Dick and the Paranormal

Synchronicities O Timothy Green Beckley
2017-05-18 BEYOND ANYTHING YOU EVER
IMAGINED WAS POSSIBLE! EXPLORE
PARALLEL WORLDS AND OTHER
DIMENSIONS. ESCAPE THE CONFINES OF
THE MATRIX AND ELUDE THOSE THAT
CONTROL OUR LIVES THROUGH A
COMPUTERIZED SIMULATION. You Have
Doubtlessly Seen The Movies Based Upon
What We Have All Come to Believe Are
Exceptionally Brilliant Science Fiction Novels
Written By The Late Philip K. Dick . . . TOTAL
RECALL - BLADE RUNNER - THE
ADJUSTMENT BUREAU But what you
probably didn't know is that their creator
was living out some of the same incredibly
bizarre scenarios that he wrote about. One
can easily compare Philip to the character
played by Arnold Schwarzenegger in "Total
Recall," who found himself in a parallel
universe on a faraway planet, despite the
fact that he was only supposed to be hooked
up in a laboratory to a machine that creates
realistic dream-like images. Which reality is
the character really living in? At a sci-fi
press conference held in France in 1977,
Philip tried to explain some of his
bewildering thoughts about the existence of
a parallel or self-contained - Matrix-like -
universe created by "someone" who has the
ability to alter the course of time and our
concept of reality: "People claim to
remember past lives," Philip told the throng
of reporters and fans. "I claim to remember
a different - very different - present life. I
know of nobody who has ever made this
claim before but I rather suspect that my
experience is not unique. What perhaps is
unique is my willingness to talk about it. We
are living in a computer-programmed reality
and the only clue we have to it is when
some variable is changed and some
alteration in our reality occurs . . . and
because of this a variable WAS changed -
reprogrammed as it were - and an
alternative world branched off." Drawing on
the masterful mind of creative genius Philip
K. Dick we offer up dozens of his personal
experiences, as well as those of others in
the UFO and paranormal fields, where
synchronicities seem to abound. This is NOT

science fiction. This is a universe that
cannot be so easily grasped or explained.
The well-known collector of scientific
curiosities, Charles Fort, is often quoted as
having said: "The Earth is a farm. We are
someone's property." He likened our
condition to being movable pieces on a
chess board. "There is no doubt that we are
under some sort of surveillance and that an
"invisible hand" has the ability to carve out
our existence and "interfere" in our daily
lives by creating a variety of bizarre "play
scripts" that to some may seem like pure
"coincidences."" Or so says pop culture
paranormalist Tim Beckley, who notes that
"Synchronicities are not just random
occurrences but are laid out before us by
some sort of synchronicity command post,
which ably demonstrates their mastery or
control over us hapless earthlings." Drawing
on the masterful mind of creative genius
Philip K. Dick (some to this day perceive him
to have been a total "mad man") we offer up
dozens of his personal experiences, as well
as those of others in the UFO and
paranormal fields, where synchronicities
seem to abound. Beckley and co-author
Sean Casteel lay out a plausible scenario to
"explain" the intricate workings of what has
been dubbed "The Synchronicity Command
Board," or "Earth Coincidence Control
Office," as so aptly named by the brilliant
American marine biologist and neurologist,
Dr. John C. Lilly. THE MATRIX CONTROL
SYSTEM OF PHILIP K. DICK - AND THE
PARANORMAL SYNCHRONICITIES OF
TIMOTHY GREEN BECKLEY has been
compiled by Tim Beckley and Sean Casteel
with an Introduction by Tessa Dick and
added contributions by such esteemed
researchers as: Philip K. Dick, Tim Swartz,
Nick Redfern, Diane Tessman, Hercules
Invictus, Brad Steiger, Brent Raynes,
Cynthia Cirile, Valarie D. Orazio, and others
who have come to conclude we are living in
a computerized simulation, and like PKD
acknowledge the existence of the Matrix.

The Chevrolet Small-Block Bible Thomas J.

Madigan 2012-08-15 Ever since its introduction in 1955, Chevrolet's small-block V-8 has defined performance. It was the first lightweight, overhead-valve V-8 engine ever available to the masses at an affordable price and, better yet, had tremendous untapped performance potential, making it the performance engine of choice to this day. What sets the Chevy small-block further apart is the fact that a builder does not have to spend big money to get big horsepower numbers. Using multiple examples of engine builds and case studies, The Chevrolet Small-Block Bible provides the reader with the information needed to

build anything for a mild street engine for use in a custom or daily driver to a cost-is-no-object dream build. Includes parts selection, blue printing, basic machine work, and more.

Architecting the Internet of Things Dieter Uckelmann 2011-04-02 Many of the initial developments towards the Internet of Things have focused on the combination of Auto-ID and networked infrastructures in business-to-business logistics and product lifecycle applications. However, the Internet of Things is more than a business tool for managing business processes more efficiently and more effectively – it will also enable a more convenient way of life. Since the term Internet of Things first came to attention when the Auto-ID Center launched their initial vision for the EPC network for automatically identifying and tracing the flow of goods within supply-chains, increasing numbers of researchers and practitioners have further developed this vision. The authors in this book provide a research perspective on current and future developments in the Internet of Things. The different chapters cover a broad range of topics from system design aspects and core architectural approaches to end-user participation, business perspectives and applications.

Maids of Misfortune M. Louisa Locke 2009 First book in the USA Today bestselling Victorian San Francisco Mystery series. It's the summer of 1879, and Annie Fuller, a young San Francisco widow, is in trouble. Annie's husband squandered her fortune before committing suicide five years earlier, and one of his creditors is now threatening to take the boardinghouse she owns to pay off a debt. Annie Fuller also possesses a secret. She supplements her income by giving domestic and business advice as Madam Sibyl, one of San Francisco's most exclusive clairvoyants, and one of Madam Sibyl's clients, Matthew Voss, has died. The police believe his death was suicide brought upon by bankruptcy, but Annie believes Voss has been murdered and that his assets have been stolen. Nate Dawson wrestles with a difficult decision. As the Voss family lawyer, he would love to prove that Matthew Voss didn't leave his grieving family destitute. But that would mean working with Annie Fuller, a woman who alternatively attracts and infuriates him as she shatters

every notion he ever had of proper ladylike behavior. Sparks fly as Anne and Nate pursue the truth about the murder of Matthew Voss in this light-hearted, cozy historical mystery set in the foggy, gas-lit world of Victorian San Francisco. *Maids of Misfortune* is the first book in M. Louisa Locke's USA Today bestselling Victorian San Francisco mystery series, followed by *Uneasy Spirits*, *Bloody Lessons*, *Deadly Proof*, *Pilfered Promises*, *Scholarly Pursuits*, and *Lethal Remedies*. Locke's shorter works, collected in *Victorian San Francisco Stories: Vols 1 and 2*, and *Victorian San Francisco Novellas*, feature beloved minor characters from the series. There are also two boxed sets of the novels, *Victorian San Francisco Mysteries: Books 1-4* and *Victorian San Francisco Mysteries: Books 5-7*.

Sekret Machines Book 1: Chasing Shadows

Tom DeLonge 2016-04-05 For those who know... that something is going on... The witnesses are legion, scattered across the world and dotted through history, people who looked up and saw something impossible lighting up the night sky. What those objects were, where they came from, and who—or what—might be inside them is the subject of fierce debate and equally fierce mockery, so that most who glimpsed them came to wish they hadn't. Most, but not everyone. Among those who know what they've seen, and—like the toll of a bell that can't be unring—are forever changed by it, are a pilot, an heiress, a journalist, and a prisoner of war. From the waning days of the 20th century's final great war to the fraught fields of Afghanistan to the otherworldly secrets hidden amid Nevada's dusty neverlands—the truth that is out there will propel each of them into a labyrinth of otherworldly technology and the competing aims of those who might seek to prevent—or harness—these beings of unfathomable power. Because, as it turns out, we are not the only ones who can invent and build...and destroy. Featuring actual events and other truths drawn from

sources within the military and intelligence community, Tom DeLonge and A.J. Hartley offer a tale at once terrifying, fantastical, and perhaps all too real. Though it is, of course, a work of... fiction?
