The Wolves Alex Berenson 2017-01-31 CIA agent John Wells refuses to let a privileged businessman walk away from a crime in this novel of modern suspense from the #1 New York Times-bestselling author. John Wells has just barely managed to stop an operation designed to drive the United States and Iran into war, but the instigator himself disappeared behind an impenetrable war of security. Now it's time for him to pay, and Wells has made it his personal mission. There are plenty of crosscurrents at work, though. The White House doesn't want anybody stirring the pot; his old CIA bosses have

their own agendas; other countries are starting to sniff around, sensing something unusual. It is when Russia and China enter the mix, however, that the whole affair is set to combust. With alarming speed, Wells is once again on his own...and the wolves are closing in.

A Spy by Nature Charles Cumming 2007-07-10

This is what they told me a long time ago. Only make contact in the event of an emergency. Only telephone if you believe that your position has been fatally compromised. Under no circumstances are you to approach us unless it is absolutely necessary in order to preserve the

security of the operation. This is the number. Alec Milius is young, smart, and ambitious. He also has a talent for deception. He is working in a dead-end job when a chance encounter leads him to MI6, the elite British Secret Intelligence Service, handing him an opportunity to play center-stage in a dangerous game of espionage. In his new line of work, Alec finds that the difference between the truth and a lie can mean the difference between life and death—and he is having trouble telling them apart. Isolated and exposed, he must play a role in which the slightest glance or casual remark can seem

heavy with unintended menace. Caught between British and American Intelligence, Alec finds himself threatened and alone, unable to confide in even his closest friend. His life as a spy begins to exact a terrible price, both on himself and on those around him. Richly atmospheric and chillingly plausible, *A Spy By Nature* announces the arrival of British author Charles Cumming as heir apparent to masters like John le Carré and Len Deighton. A bestseller in England, it's the gripping story of a young man driven by ruthless ambition who finds himself chasing not just success, but survival. Look out for Charles

Cumming's next novel, *The Trinity Six*, in March. William Boyd calls *The Trinity Six* "Utterly absorbing and compelling. A brilliant re-imagining of events surrounding the notorious Cambridge spy-ring."

The Counterfeit Agent Alex Berenson 2014-02-11

"Berenson's strength is his deep understanding of geopolitics and of the shoddy compromises it demands. He clearly has excellent contacts in the world of shadows. Wells is a complex and satisfying protagonist, tackling bad guys across the world's conflict zones."--The New York Times Book Review John Wells goes undercover as the

threat of nuclear war skyrockets between the United States and Iran, in the cutting-edge new novel from the #1 New York Times–bestselling author. In an Istanbul hotel, a deep source warns a CIA agent that Iran intends to kill a CIA station chief. Quickly, John Wells is called in to investigate, but before he can get far, the tip comes true. Which means that the next warning the source gives will be taken very seriously indeed. And it's a big one. We've put a package on a ship from Dubai to the United States. A radioactive one. A bomb? Not yet. It's a test run. As the threat level jumps and the government

mobilizes, something still doesn't smell right to Wells's old CIA boss Ellis Shafer, and so he sends Wells on a private mission to find out what's going on. But the two of them are swimming against the tide. From Guatemala to Thailand to Hong Kong to Istanbul, Wells uses every skill he has, including his ability to go undercover in the Arab world, to chase down leads. But it might not be enough. Soon there might be nothing anyone can do to pull the United States back from the brink of war.

This Light Between Us: A Novel of World War II

Andrew Fukuda 2020-01-07 Winner of the American Library Association's Asian/Pacific American Award for Literature For readers of *The*

Librarian Of Auschwitz, This Light Between Us is a powerfully affecting story of World War II about the unlikelyst of pen pals—a Japanese American boy and a French Jewish girl—as they fight to maintain hope in a time of war. “I remember visiting Manzanar and standing in the windswept plains where over ten thousand internees were once imprisoned, their voices cut off. I remember how much I wanted to write a story that did right by them. Hopefully this book delivers.”—Andrew Fukuda In 1935, ten-year-old Alex Maki from Bainbridge Island, Washington is disgusted when he’s forced to become pen pals with Charlie Lévy

of Paris, France—a girl. He thought she was a boy. In spite of Alex’s reluctance, their letters continue to fly across the Atlantic—and along with them, the shared hopes and dreams of friendship. Until the Japanese attack on Pearl Harbor and the growing Nazi persecution of Jews force them to confront the darkest aspects of human nature. From the desolation of an internment camp on the plains of Manzanar to the horrors of Auschwitz and the devastation of European battlefields, the only thing they can hold onto are the memories of their letters. But nothing can dispel the light between them. At the Publisher's

The Faithful Spy Alex Berenson 2006-04-25 “A well-crafted page-turner that addresses the most important issue of our time. It will keep you reading well into the night.”—Vince Flynn A New York Times reporter has drawn upon his experience covering the occupation in Iraq to write the most gripping and chillingly plausible thriller of the post-9/11 era. Alex Berenson’s debut novel of suspense, *The Faithful Spy*, is a sharp, explosive story that takes readers inside the war on terror as fiction has never done

before. John Wells is the only American CIA agent ever to penetrate al Qaeda. Since before the attacks in 2001, Wells has been hiding in the mountains of Pakistan, biding his time, building his cover. Now, on the orders of Omar Khadri—the malicious mastermind plotting more al Qaeda strikes on America—Wells is coming home. Neither Khadri nor Jennifer Exley, Wells’s superior at Langley, knows quite what to expect. For Wells has changed during his years in the mountains. He has become a Muslim. He finds the United States decadent and shallow. Yet he hates al Qaeda and the way it uses Islam to

justify its murderous assaults on innocents. He is a man alone, and the CIA—still reeling from its failure to predict 9/11 or find weapons of mass destruction in Iraq—does not know whether to trust him. Among his handlers at Langley, only Exley believes in him, and even she sometimes wonders. And so the agency freezes Wells out, preferring to rely on high-tech means for gathering intelligence. But as that strategy fails and Khadri moves closer to unleashing the most devastating terrorist attack in history, Wells and Exley must somehow find a way to stop him, with or without the government’s consent. From secret

American military bases where suspects are held and “interrogated” to basement laboratories where al Qaeda’s scientists grow the deadliest of biological weapons, *The Faithful Spy* is a riveting and cautionary tale, as affecting in its personal stories as it is sophisticated in its political details. The first spy thriller to grapple squarely with the complexities and terrors of today’s world, this is a uniquely exciting and unnerving novel by an author who truly knows his territory.

Against the Day Thomas Pynchon 2012-06-13 A New York Times Notable Book of the Year, a Washington Post Best Book of the Year Spanning

the era between the Chicago World's Fair of 1893 and the years just after World War I, and constantly moving between locations across the globe (and to a few places not strictly speaking on the map at all), *Against the Day* unfolds with a phantasmagoria of characters that includes anarchists, balloonists, gamblers, drug enthusiasts, mathematicians, mad scientists, shamans, spies, and hired guns. As an era of uncertainty comes crashing down around their ears and an unpredictable future commences, these folks are mostly just trying to pursue their lives. Sometimes they manage to catch up;

sometimes it's their lives that pursue them.

The King in Yellow Robert William Chambers
2020-09-28 Toward the end of the year 1920 the Government of the United States had practically completed the programme, adopted during the last months of President Winthrop's administration. The country was apparently tranquil. Everybody knows how the Tariff and Labour questions were settled. The war with Germany, incident on that country's seizure of the Samoan Islands, had left no visible scars upon the republic, and the temporary occupation of Norfolk by the invading army had been forgotten

in the joy over repeated naval victories, and the subsequent ridiculous plight of General Von Gartenlaube's forces in the State of New Jersey. The Cuban and Hawaiian investments had paid one hundred per cent and the territory of Samoa was well worth its cost as a coaling station. The country was in a superb state of defence. Every coast city had been well supplied with land fortifications; the army under the parental eye of the General Staff, organized according to the Prussian system, had been increased to 300,000 men, with a territorial reserve of a million; and six magnificent squadrons of cruisers and battle-

ships patrolled the six stations of the navigable seas, leaving a steam reserve amply fitted to control home waters. The gentlemen from the West had at last been constrained to acknowledge that a college for the training of diplomats was as necessary as law schools are for the training of barristers; consequently we were no longer represented abroad by incompetent patriots. The nation was prosperous; Chicago, for a moment paralyzed after a second great fire, had risen from its ruins, white and imperial, and more beautiful than the white city which had been built for its plaything in 1893.

Everywhere good architecture was replacing bad, and even in New York, a sudden craving for decency had swept away a great portion of the existing horrors. Streets had been widened, properly paved and lighted, trees had been planted, squares laid out, elevated structures demolished and underground roads built to replace them. The new government buildings and barracks were fine bits of architecture, and the long system of stone quays which completely surrounded the island had been turned into parks which proved a god-send to the population. The subsidizing of the state theatre and state opera

brought its own reward. The United States National Academy of Design was much like European institutions of the same kind. Nobody envied the Secretary of Fine Arts, either his cabinet position or his portfolio. The Secretary of Forestry and Game Preservation had a much easier time, thanks to the new system of National Mounted Police. We had profited well by the latest treaties with France and England; the exclusion of foreign-born Jews as a measure of self-preservation, the settlement of the new independent negro state of Suanee, the checking of immigration, the new laws concerning

naturalization, and the gradual centralization of power in the executive all contributed to national calm and prosperity. When the Government solved the Indian problem and squadrons of Indian cavalry scouts in native costume were substituted for the pitiable organizations tacked on to the tail of skeletonized regiments by a former Secretary of War, the nation drew a long sigh of relief. When, after the colossal Congress of Religions, bigotry and intolerance were laid in their graves and kindness and charity began to draw warring sects together, many thought the millennium had arrived, at least in the new world

which after all is a world by itself.

Unreported Truths about Covid-19 and

Lockdowns Alex Berenson 2020-08-03

From former New York Times reporter Alex Berenson, the second installment in the best-selling series

that offers hard data about the coronavirus epidemic - rather than hysterical predictions of doom. Like Part 1, this section draws on primary sources like Centers for Disease Control and World Health Organization reports, along with news articles, government documents, and scientific papers. In three chapters, this section explains the surprising scientific debate around lockdowns BEFORE

March, along with the evidence that they did or did not work as intended to reduce the spread of the coronavirus and save lives. If you have been wondering whether lockdowns made any difference - as the media has loudly insisted - Part 2 will give you the truthful, accurate and well-sourced information you need to make up your own mind. Please note: This booklet contains only the second section of Unreported Truths. Part 1 is available separately.

Unreported Truths about COVID-19 and Lockdowns Alex Berenson 2020-06-03 First in a

series of booklets by former New York Times reporter Alex Berenson about the coronavirus. **Pandemia** Alex Berenson 2021-11-30 The most important fact about the coronavirus pandemic that turned the world upside down in 2020 is that our response to it has been an epic overreaction driven by a disastrous confluence of public and private interests—all of them purporting to “follow the science.” Since the lockdowns began, millions of Americans have relied on the reporting of Alex Berenson. Exposing the hysteria and manipulation behind the worst failure of public policy since World War I, this clear-eyed journalist

has been a critical source of reason and truth. The product of relentless investigation and research, **Pandemia** explains how an illness that many people will never even know they had became the occasion for economically ruinous lockdowns and the suppression of personal freedom on a previously unimaginable scale. Dispassionate, factual, and untainted by any agenda other than telling the truth, this is the account that pandemic-weary Americans desperately need.

The Glass Castle Jeannette Walls 2006-01-02 Journalist Walls grew up with parents whose

ideals and stubborn nonconformity were their curse and their salvation. Rex and Rose Mary and their four children lived like nomads, moving among Southwest desert towns, camping in the mountains. Rex was a charismatic, brilliant man who, when sober, captured his children's imagination, teaching them how to embrace life fearlessly. Rose Mary painted and wrote and couldn't stand the responsibility of providing for her family. When the money ran out, the Walls retreated to the dismal West Virginia mining town Rex had tried to escape. As the dysfunction escalated, the children had to fend for

themselves, supporting one another as they found the resources and will to leave home. Yet Walls describes her parents with deep affection in this tale of unconditional love in a family that, despite its profound flaws, gave her the fiery determination to carve out a successful life. -- From publisher description.

Ghost Wars Steve Coll 2005-03-03 The news-breaking book that has sent shockwaves through the White House, *Ghost Wars* is the most accurate and revealing account yet of the CIA's secret involvement in al-Qaeda's evolution. Prize-winning journalist Steve Coll has spent

years reporting from the Middle East, accessed previously classified government files and interviewed senior US officials and foreign spymasters. Here he gives the full inside story of the CIA's covert funding of an Islamic jihad against Soviet forces in Afghanistan, explores how this sowed the seeds of bn Laden's rise, traces how he built his global network and brings to life the dramatic battles within the US government over national security. Above all, he lays bare American intelligence's continual failure to grasp the rising threat of terrorism in the years leading to 9/11 - and its devastating

consequences.

The Deceivers Alex Berenson 2019-02-05 THE NEW YORK TIMES BESTSELLER Interfering with the presidential election was just the first step. The Russians don't just want to influence American elections--they want it all. Former CIA agent John Wells confronts a plot of astonishing audacity as New York Times-bestselling author Alex Berenson goes beyond today's headlines to tomorrow's all-too-real threats. It was supposed to be a terrorist sting. The guns were supposed to be disabled. Then why was there so much blood? The target was the American Airlines Center, the

home of the Dallas Mavericks. The FBI had told Ahmed Shakir that his drug bust would go away if he helped them, and they'd supply all the weaponry, carefully removing the firing pins before the main event. It never occurred to Ahmed to doubt them, until it was too late. When John Wells is called to Washington, he's sure it's to investigate the carnage in Dallas, but it isn't. The former CIA director, now president, Vinnie Duto has plenty of people working in Texas. He wants Wells to go to Colombia. An old asset there has information to share--and it will lead Wells to the deadliest mission of his life, an

extraordinary confluence of sleeper cells, sniper teams, false flag operations, double agents high in the U.S. government--and a Russian plot to take over the government itself. If it succeeds, what happened in Texas will be only a prelude.

With Russia expanding its influence from Syria to the Baltic States, the Taskforce is placed on stand-down because of the actions of one rogue operator. Meanwhile, Pike Logan and Jennifer Cahill travel to Poland, hired to verify artifacts hidden for decades in a fabled Nazi gold train, only to find themselves caught amid growing tensions between East and West. A Russian incursion into Belarus under the facade of self-defense is trumped by a horrific attack against the United States, driving NATO to

mobilize even as it tries to determine who is behind the strike. On the brink of war, Pike and Jennifer discover that there is a separate agenda in play, one determined to force a showdown between NATO and Russia.
